Personal Profile

I am an initiative-taking and technically proficient **Machine Learning Engineer and Data Specialist** with a strong academic and professional background in computing, artificial intelligence, and data analytics. Holding a **First-Class BSc (Hons) in Computing** from The Open University, I possess advanced expertise in **Python programming, deep learning, and data engineering**. My firsthand experience spans the design, training, and deployment of **machine learning models** using frameworks such as **TensorFlow, PyTorch, and Scikit-learn**, as well as the development of **RESTful APIs** and scalable **cloud-based solutions** on **Google Cloud Platform (Vertex AI)**, **AWS**, and **Microsoft Azure**. I am enthusiastic about leveraging data-driven insights and intelligent systems to solve complex, real-world challenges while contributing to innovative, collaborative environments.

Key Skills & Technical Proficiencies

Artificial Intelligence & Machine Learning

- Proficient in **Python**, with experience using **pandas, NumPy, scikit-learn, TensorFlow, PyTorch**, and **matplotlib** for model development and evaluation.
- Skilled in **supervised and unsupervised learning, regression, classification, clustering**, and **neural network design**.
- Experienced in **feature engineering, data preprocessing, model optimisation**, and **hyperparameter tuning**.
- Knowledge of **MLOps, model deployment**, and **cloud-based ML services** (e.g., **Vertex AI, AWS Sagemaker, Azure ML Studio**).
- Strong understanding of **AI ethics, model interpretability**, and **responsible AI** principles.

Data Engineering & Analytics

- Proficient in **SQL, PostgreSQL, MySQL**, and **MongoDB** for database management, ETL, and data pipeline construction.
- Skilled in **data extraction, transformation, and loading (ETL)**, **data cleaning**, and **schema optimisation** for large-scale analytical systems.
- Experienced in **data visualisation** using **Power BI, Tableau**, and **matplotlib** to translate data into actionable insights.
- Strong grasp of **data governance, data integrity**, and **GDPR-compliant** analytics solutions.

Software & Cloud Development

- Experienced in developing **RESTful APIs** and full-stack web solutions using **Flask, Django, FastAPI, HTML5, CSS, JavaScript, Java**, and **C++**.
- Proficient in **cloud services: Google Cloud (GCP), AWS**, and **Microsoft Azure** for **deployment, storage**, and **compute orchestration**.
- Familiar with **containerisation (Docker, Kubernetes)**, **CI/CD pipelines**, and **version control** using **Git/GitHub**.
- Knowledge of **serverless architecture, DevOps workflows**, and **microservice integration** for scalable system design.

IT Operations & Cybersecurity

- Experienced in **ITIL-based service management, remote desktop support**, and **ticketing systems**.
- Skilled in diagnosing and resolving **hardware, software, and network issues** efficiently.
- Knowledgeable in **VPNs, firewalls**, and **security protocols** for maintaining secure environments.
- Basic understanding of **cybersecurity**, including **threat detection, firewall configuration**, and **malware mitigation**.

Professional & Collaborative Competencies

- Strong written and verbal communicator, capable of conveying complex technical concepts clearly to diverse audiences.
- Experienced in **team leadership, cross-functional collaboration**, and **global project coordination**.
- Trusted with **staff recruitment, training, and resource management**, ensuring alignment with organisational goals.
- Familiar with **Agile** and **Scrum** methodologies, using **Jira** and **Trello** for structured project delivery.
- Adaptable, meticulous, and committed to maintaining **quality, ethics, and continuous improvement**.

Education & Qualifications

BSc (Hons) Computing – First Class Honours - The Open University — Awarded 2025

- Focus areas: Artificial Intelligence, Data Analytics, Cloud Computing, and Software Engineering.
- Developed advanced skills in Python, TensorFlow, and data-driven system design.

M816 – Data Management (Postgraduate Module) -The Open University — Expected Completion: June 2026

- Advanced study in data governance, data modelling, and database system optimisation.

Professional Certifications -

Google Cloud Certified: Professional Machine Learning Engineer (2024) · DeepLearning.AI TensorFlow Developer (2024) · PCPP2™ Certified Professional in Python Programming 2 (2024) · PCPP1™ Certified Professional Python Programmer Level 1 (2024) · EDI Level 3 Diploma in Business & Administration, BCW Training Ltd (2014)

Secondary Education - St. MacNissi's College, Garron Tower, Carnlough (2001–2008)

- **A Levels:** Applied Information Technology (A), Biology (B), Geography (B), Chemistry (C).
- **GCSEs:** nine subjects including ICT (A), Geography (A), English Literature (B), and Double Science (BB).

Work Experience

Creative Director / Technical Lead - Paramount Perceptions – Self-Employed | Mar 2019 – Present

- Lead the design and implementation of **AI-assisted digital solutions**, web applications, and creative technology projects for clients across healthcare, education, and retail sectors.
- Develop **data-driven strategies** integrating **machine learning insights**, cloud services, and automation workflows.
- Manage full project lifecycles from concept to deployment, ensuring adherence to **ethical standards**, **GDPR**, and **client objectives**.
- Oversee client relationships, budget allocation, and stakeholder communication, ensuring consistent project success and client retention.

CRM Systems Coordinator - Industrial Temps – Belfast | Nov 2018 – Mar 2019

- Administered and optimised **CRM software and internal systems**.
- Provided **front-line technical support**, troubleshooting system errors and implementing improvements to streamline workflows.
- Trained staff in effective CRM use, improving data integrity and reporting accuracy by over 25%.
- Supported the transition to **data-driven recruitment tracking**, enabling improved performance insights.

IT & Database Systems Manager - Platinum Support & Care Services Ltd – Ballycastle | May 2016 – Nov 2018

- Designed and maintained a centralised **Microsoft Access database** integrating staff, client, and compliance data, reducing administrative workload by 40%.
- Deployed **Power BI dashboards** for real-time KPI monitoring and executive reporting.
- Led recruitment, staff development, and IT infrastructure upgrades, including network setup & data security improvements.
- Modernised the company's brand and online presence, managing digital content and communications strategy.
- Served as the organisation's sole IT support lead, ensuring continuity of operations across all systems.

E-Commerce & Multimedia Assistant - Christies Direct – Ballymoney | Nov 2013 – May 2014

IT & Design Assistant - Zing Design and Print – Coleraine | Apr 2013 – Jul 2013

Volunteering & Community Involvement

Digital Volunteer / Web Contributor / Technology Advisor – RSPB Rathlin Island Project

RSPB Northern Ireland | 2024 – Present

- Contribute to the development of **Rathlin360.com**, a digital platform highlighting the island's **biodiversity, conservation, and heritage**.
- Enhance **content optimisation, accessibility, SEO, and mobile responsiveness** to expand audience reach.
- Collaborate with **conservation, tourism, and education teams** to deliver engaging, sustainable digital experiences.
- Apply **data analytics and user feedback** to improve site navigation and measure **digital outreach impact**.
- Advocate for **sustainable digital practices**, linking **technology, ecology, and community education**.

Interests

I am enthusiastic about the advancement of **artificial intelligence and digital transformation**, continuously exploring emerging technologies, frameworks, and cloud-based innovations. I also engage actively in **tech communities and forums**, sharing insights on AI ethics, data analytics, and automation. Outside of technology, I am an avid sports enthusiast, particularly dedicated to **running and endurance training**, which reflect my focus, discipline, and long-term commitment to improvement.
